

THANK YOU!

Major changes are happening at Rosenbauer, thanks to your support. We have outgrown our existing ARFF production facility and are moving into a 50,000 sq ft production facility dedicated exclusively to Panther and Airwolf ARFF vehicle production.

We have continually made great strides since Rosenbauer started producing ARFF vehicles in the United States and we recognize that our success has come by providing high quality vehicles that are safe and reliable. But most of our success is due to you, the customer, believing in us and our products.

These are exciting times for Rosenbauer and there are more changes to come in the near future.

Find out more at: www.rosenbaueramerica.com or call 651-462-1000 to find your local dealer.
