IN THIS EDITION

BOEING 727-200 POSITIVE PRESSURE VENTILATION TESTS CONDUCTED AT ONTARIO INTERNATIONAL AIRPORT

4

Aircraft ventilation techniques are important when conducting aircraft interior firefighting. *ASO DAN PIERCE* tells AFJ readers about some aircraft Positive Pressure Ventilation (PPV) tests that were recently conducted at Los Angeles Ontario International Airport.

DOES TRADITIONAL FIRE FIGHTING END AT SOME AIRPORT FENCES? - PART THREE

11

Contributing Editor *LES OMANS* continues a four-part investigative series that examines commercial aircraft interior aircraft fire fighting.

BACK TO BASICS - AIRCRAFT VENTILATION FOR ARFF

28

AFJ Contributing Editor *DAN PIERCE* takes a look at why aircraft ventilation tactics are important to know.

ONE MAN'S OPINION AIRPORT FIREFIGHTERS: CERTIFIED OR UNCERTIFIED 36

Tulsa Airport's ARFF Department trainer *FRED CHAMBERS* offers some opinions regarding the good and bad on airport fire fighters "certification".

WATER SUPPLY: THE VITAL KEY FOR SUCCESS IN AIRCRAFT FIREFIGHTING OPERATIONS

39

U.S. Air Force Firefighter *ROBERT DOWDER* reviews some of the various water supply options we have, and the importance of planning and reinforcing this important element in our airport emergency planning.
