JULY 14, 2006 (WOODSTOCK, England) - An RAF Harrier jump jet crashed beside a main road yesterday after its pilot ejected to safety seconds before impact. The Harrier had been flying low over

Oxfordshire. The pilot, the only occupant, sent a brief SOS message to say he was in difficulties and was ejecting. It was flying from RAF Cottesmore in Rutland to the Royal International Air Tattoo, to be held at RAF Fairford.

JULY 18, 2006 (SYDNEY, Australia) - Australian military fire crews apply foam after an emergency landing by an F-111 at R A A F Amberley, Queensland

after a wheel fell off the aircraft

take-off. The pilot and navigator both escaped uninjured. There are plans to retire the entire F-111 fleet from 2010. (Photo by Bruce Long)

JULY 19, 2006 (VICTORIA, Canada) - A single engine Bonanza Beechcraft kept emergency personnel busy after the nose gear did not engage and the pilot informed the tower then circled the airport. The pilot brought it down on rear gear. The pilot, his wife and their two children, were evacuated within 30 seconds

and VAA fire department was on hand immediately. The crash landing blocked the main runway at Victoria International Airport for 50 minutes before the Transportation Safety Board okayed the removal of the aircraft.

JULY 19, 2006 (ANTALYA, Turkey) - A police helicopter crashed into the center of the resort city of Antalya on Turkey's Mediterranean coast, killing all five officers on board but causing no casualties on the ground.

JULY 19, 2006 (CRESCO, Iowa – USA) - Rescue personnel look over the wreckage of a Cessna Citation business jet carrying four people that crashed near the Cresco airport. The plane's two pilots were
